SUMMARY

Computer Science & Engineering undergraduate with research work in digital health and machine learning alongside software development experience in startups. Interests include machine learning reliability, explainable AI, data systems, and research software.

EDUCATION

Punjabi University, Patiala

2023 – 2027

Bachelor of Technology (B.Tech.) in Computer Science & Engineering

CGPA: 7.96/10

Relevant Coursework: Data Structures & Algorithms, Operating Systems, Database Management Systems, Computer Networks, Artificial Intelligence, Machine Learning, Software Engineering, Theory of Computation

RESEARCH WORK

Indian Institute of Technology Ropar

May 2026 – Jul 2026

Summer Research Intern · Supervisor: Dr. Sujata Pal

- Developed two full-stack research platforms for healthcare studies, covering participant workflows and researcher dashboards.
- Built REST APIs, JWT authentication and MongoDB backends using Node.js/Express.js; contributed to wearable integration testing and validation.

Punjabi University Patiala

Aug 2024 – Dec 2024

Academic research · Supervisor: Snehkunwar Sidhu

- Reviewed and analysed research papers on neural-network approaches for 5G/6G communication systems.

EXPERIENCE

BuildVR

Jan 2025 – Present

Software Development & Marketing intern

- Worked on immersive VR/3D software, multilingual web experiences and AI-assisted video workflows, supporting 3D assets, testing and deployment.

Grubox

Jan 2025 – Present

Software Development & Marketing intern

- Managed ongoing development of the production web platform alongside digital marketing, content planning and social media initiatives.

TECHNICAL SKILLS

Languages: Python, C++, C, JavaScript, TypeScript, SQL

Frameworks: React, Next.js, Node.js, Express.js, Vite

Databases: MongoDB, Mongoose, PostgreSQL

Backend: REST APIs, JWT Authentication, Role-Based Access Control

Libraries: NumPy, Pandas, Matplotlib

Tools: Git, GitHub, Linux, VS Code, Postman

TRAINING AND COURSES

Indian Institute of Technology Kanpur - Full Stack Web Development (MERN) Training

June 2024- July 2024

IIRS (ISRO) - AI/ML for Geodata Analysis | Aug 2024

PROJECTS

[Women's Health Research Platform](#)

React | TypeScript | Node.js | Express.js | MongoDB | JWT

- Built participant workflows for symptom and menstrual tracking, questionnaires and longitudinal research data collection; developed researcher dashboards and backend services.

[Stress Management Research Platform](#)

React | TypeScript | Node.js | Express.js | MongoDB | JWT

- Built stress-assessment workflows with wearable integration, REST APIs, authentication and researcher dashboards.

[Grubox - Production Website Migration](#)

Next.js

- Migrated the production website from Wix to Next.js and continue implementing frontend, content and feature updates. **[Live]**

[BuildVR - Multilingual Landing Pages](#)

Web development

- Developed and adapted landing pages for different languages and audiences, alongside work with 3D/VR assets and immersive digital experiences.

LEADERSHIP & ACTIVITIES

- Executive Member – Technical Society, Punjabi University (Mar 2025 – Mar 2026)
- Contributor – GirlScript Summer of Code 2025

ACHIEVEMENTS

- National-Level Gold Medalist — Avantika Painting Competition (2017)
- Winner — GDG TechSprint Hackathon
- Solved 200+ LeetCode Problems
